Pipeline Signal

- Filtered — Intentional validation
- Missing unit — needs review
- Outlier — Strong anomaly

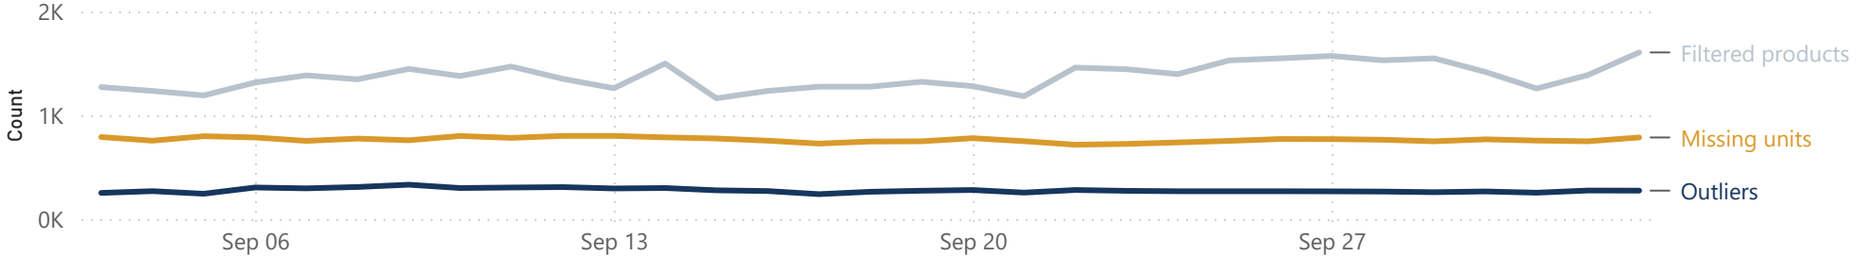

Silent loss

8.9K
5.5% of received

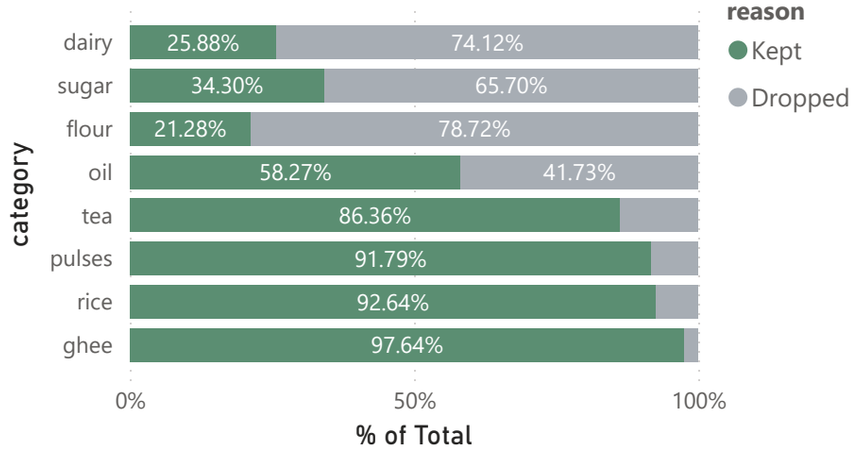

Received	Kept	Rejected	Outlier
161.4K	101.2K	51.2K	8.6K
Total scraped	62.7% of received	31.7% of received	5.3% of received

Validation Rejections Over Time

Filtered products are intentional; missing units indicate incomplete data; outliers are the strongest anomaly signal.

Kept vs. Dropped Products by Category
